Brycons AggWeigh 2011 is a computer program that automates tracking of material transported out of your yard. It speeds up processing of each truck.

Feature List

- ⊗ Automates printing of tickets
- ⊗ Automates tracking of material per job, customer, truck, destination, driver, truck owner or yard
- ⊗ Provides a close of business report
- ⊗ Maintains tare weight of trucks
- ⊗ Supports preload or no-weight tickets
- ⊗ Detects tare and gross weight of truck via a digital interface to scale
- ⊗ Reduces repetitive labor and data-entry errors because data is entered only once
- ⊗ Configures ticket format to suit your needs
- ⊗ Provides audit trail via user based security
- ⊗ Provides instant snapshots of jobs
- ⊗ Trial version is available
